

Long Term Care

Empowering Better Care

Beautiful, Functional Designs to Attract New Residents

You know the challenges. We know the solutions. Our full suite of Long Term Care (LTC) solutions was crafted specifically to meet the needs of your residents and make it easy for families to choose your facility. The functional, stylish designs exceed the rigorous challenges and expectations that many LTC facilities face while offering unique benefits to the industry:

- Clinical representatives with the research and data to find the best solutions for your facility
- Local representatives ready to provide training, education, and support
- Unsurpassed value across our full line of products for Long Term Care facilities:
 - LTC Beds
 - Therapeutic Support Surfaces
 - Resident Room Furniture
 - Resident Lifts
 - Showering and Bathing Systems
 - Mobility
 - Durable Medical Equipment
 - Respiratory
 - Bariatric
 - Fall Prevention
 - Recliners
 - Dining & Common Room Furniture

Equip your facility with products that elevate the daily experience for your residents and staff and enjoy expert support every step of the way.

Meet the Senior Living Team

Our dedicated Senior Living team is committed to providing exceptional support and expertise. Our team consists of highly skilled professionals who specialize in selecting, managing, and optimizing medical equipment to enhance the quality of life for your residents.

**Quick Ship Bed Ends available in 3 finishes: OSLO Oak, OSLO Cherry, OSLO Figured Mahogany and available in 2 bed end styles: Brownlee Woods, Mill Creek*

Bigger is Not Always Better

With most of the bells and whistles of the P903, the P703 is reduced in size to accommodate a smaller LTC resident room. The weight capacity is 550 lb. and the length adjusts to 76", 80" or 84". In its low position, the bed deck rests only 7" off the ground and can be raised to a high position of 30" off the ground.

Dynamic Elite™ Pressure Redistribution Long Term Care Mattress

Model #6500-DE-2-FB

Premium Pressure Redistribution

Optimal pressure redistribution coupled with heat dissipation and increased breathability make the Dynamic Elite the premium option for residents at risk of developing pressure injuries. The gel-infused foam top layer keeps skin cool and dry and enhances patient comfort.

Features

- 400 lb. weight capacity
- 4 Layers of therapeutic foam with full width gel-infused memory foam top layer and heel slope
- Fluid- and tear-resistant stretch cover; low shear, easy-to-clean
- Meets flammability standards (CFR 1632 and CFR 1633)
- Limited Warranty: 15 year mattress, 3 year cover

Multi-Ply ShearCare™ 1500 Pressure Redistribution Foam Mattress

Model #1500SC-42-FB | Model #1500SC-48-FB

Bariatric Pressure Redistribution

High-density, bariatric, therapeutic foam mattress provides pressure redistribution and maximum support.

Features

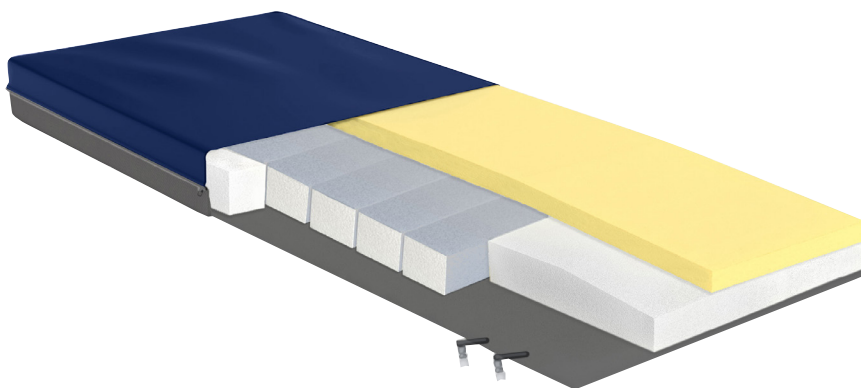

- 650 lb. (42") – 750 lb. (48") weight capacity
- Foam heel section offloads pressure from vulnerable heels.
- Removable premium, multi-stretch cover is fluid resistant, low shear and vapor-permeable helping protect the skin from friction and moisture.
- Meets flammability standards (CFR 1632 and CFR 1633)
- Limited Warranty: 5 year mattress, 3 year cover

Balanced Aire™ Self-Adjusting Convertible Mattress

Model #BA9600-NP | BA9600-NP-84 | BA9600-NP-42

Finding the Right Balance for Optimal Pressure Redistribution

Made with revolutionary hybrid viscoelastic memory foam, it offers self-adjusting pressure redistribution along with durability and versatility. Combine with a control unit for a dynamic powered air system.

Features

- 500 lb. weight capacity for 35" W | 700 lb. weight capacity for 42" W
- Premium foam-filled air cells self adjust to the resident's needs
- Vapor-permeable, fluid and tear-resistant, low shear, stretch cover
- Latex free cover is treated with an antimicrobial to guard against degradation from microorganisms.
- Meets flammability standards (CFR 1632 and CFR 1633)
- Available in various sizes including bariatric
- Limited Warranty: 5 year mattress, 5 year cover

Harmony™ True Low Air Loss Tri-Therapy Mattress Replacement System

Model #14200N | 14200N-42

Pure Harmony

Feature-filled True Low Air Loss System for optimal micro-climate control and resident comfort, the intuitive 1300 LPM blower system has alternating pressure and pulsation for the prevention and treatment of any stage pressure injury, including unstageable and deep tissue injuries.

Features

- 550 lb. weight capacity for 36" W
- 650 lb. weight capacity for 42" W
- 8" H air cells fully inflate in under two minutes
- PreserveTech™ removable quilted four way stretch cover is manufactured with an anti-microbial* agent and is fluid resistant, low shear and vapor permeable helping to protect the skin from friction and moisture.
- Limited Warranty: 2 year mattress, 2 year cover, 2 year control unit

Med-Aire Edge™ Alternating Pressure & Low Air Loss Mattress Replacement System

Model #14360-B | 14360XP

Therapeutic Power

Experience the therapeutic power of air along with the safety and transfer ease of foam with Drive Medical's new Med-Aire Edge! Designed to prevent, treat and heal pressure injuries in the home or long term care setting.

(Med-Aire Edge Mattress System with Analog Control Unit Shown)

Features

- 450 lb. weight capacity
- CPR Valve allows for rapid deflation
- 4-way stretch quilted mattress cover is fluid-resistant, low shear and vapor permeable, protecting the skin from friction and moisture. Cover is treated with an antimicrobial to guard against degradation from microorganisms.
- 20 individual air cells to maximize immersion and envelopment, including 9 ventilated air cells for micro-climate control
- 5" deep air cells are easily removed with quick disconnects for convenient servicing
- 3" firm foam perimeter for safe ingress, egress and patient transfers
- 3" firm foam base for protection during power outages
- Limited Warranty: 18 month mattress, 18 month cover, 18 month control unit

Med-Aire™ Plus 8" Alternating Pressure and Low Air Loss Mattress System

Model #14029 | 14029DP | 14029-84

Drive Medical's Most Popular Powered Air Support Surface

Combination therapy system provides both alternating pressure and low air loss to optimize pressure redistribution and manage skin maceration for the prevention and treatment of any stage pressure injury. Cell-on-cell design of 8" deep air cells prevents "bottoming out" and provides at least 24 hours of power outage protection.

Features

- 450 lb. weight capacity
- Multi-stretch, fluid-resistant, vapor-permeable, low shear, quilted cover
- Options available with 10" deep defined perimeters or 84" length
- Advanced clinical and caregiver features: Auto-firm, seat inflate, microprocessing feedback, lock-out and more!
- Limited Warranty: 18 months mattress, 18 months cover, 18 months control unit

Med-Aire 8" Alternating Pressure and Low Air Loss Mattress System

Model #14027

Just the Right Pressure

Combination therapy 8" mattress replacement system provides both alternating pressure and low air loss to prevent, treat and manage any stage pressure injury.

Features

- 350 lb. weight capacity
- Multi-stretch, fluid-resistant, vapor-permeable, low shear, quilted cover
- Adjustable patient comfort settings allow for optimal immersion and patient satisfaction
- Limited Warranty: 1 year mattress, 1 year cover, 1 year control unit

PrimeMat™ 2.0 Impact Reduction Fall Mats

Model # PM20BA (brown) | PM20GA (gray)

Fall Mitigation

The PrimeMat™ 2.0 is the only choice when developing a comprehensive fall prevention program. The molded polyurethane foam inner core construction provides maximum absorption and reduces the impact in the event of a fall.

✓ Egg Drop Tested

An egg can be dropped from 5 ft. above the mat without damage.

Features

- Full 72" length provides maximum coverage alongside bed
- Passed 5' "Egg Drop Test"—an egg was dropped from 5' above the mat without damage
- Low-profile with tapered edges allows equipment such as overbed tables or patient lifts to roll over it easily
- Anti-slip bottom netting keeps the mat secure to help prevent accidental tripping
- Available in brown and gray
- Limited Warranty: 1 year

Resident Lifts

Available with Manual or Power Base (shown)

Introducing a suite of resident lifts

Featuring contemporary soft curves and innovative technology, these stylish floor lifts provide an efficient, cost-effective solution for resident care.

Model #	Description
FLNP500	Levantar™ Floor Lift, Battery-Powered, Manual Base, 500 lb., 6 point cradle
FLP500	Levantar Floor Lift, Battery-Powered, Power Base, 500 lb., 6 point cradle
FLNP600	Gravis™ Floor Lift, Battery-Powered, Manual Base, 600 lb., 6 point cradle
FLP600	Gravis Floor Lift, Battery-Powered, Power Base, 600 lb., 6 point cradle

Features

- Lift control module and battery are smaller and complement design of the lift
- Smart & Safety Technology
 - Redundant lift controls and visual battery fuel indicator
 - Audible alert battery fuel indicator
 - O.O.S. (Object Obstruction Sensor) stops lift if resident or caregiver accidentally gets in the way of the boom arm.
 - Audible alert if the lift detects weight overload
- Maintenance monitoring:
 - Lift Control Station displays lift utilization and service data. Will also show usage history and has a service reminder to keep you on track for compliance.
 - Utilizing data is key in facilities that look for solutions in meeting compliance with their Safe Handling Programs
- Limited Warranty: Lifetime frame, 5 year electrical, 1 year battery

Sit-to-Stand Lifts

Available with Manual or Power Base (shown)

Introducing new Sit to Stand lifts

An elegant, contemporary design with soft lines. Packed full of smart and safety features typically only seen on premium Sit-to-Stand lifts, BUT at an entry-level price point.

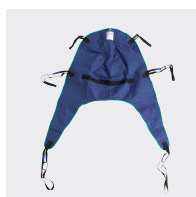

Model #	Description
STSP450	Sit-to-Stand Lift with Power Base
STSM450	Sit-to-Stand Lift with Manual Base

Features

- 450 lb. Weight Capacity
- Best in Class Limited Warranty
- Dual controls help prevent lift downtime caused by an inoperable hand pendant
- Audible and visual alert if the lift exceeds weight capacity of 450 lb.
- Object Obstruction Sensor - lift stops if it detects patient or caregiver is in the way
- Adjustable knee pad
- Removable foot plate
- Lowest floor clearance in class
- Vertical and horizontal position ergonomic handles
- Battery can be charged on and off the lift
- Audible/visual alert when battery is running low
- STSP450 power base includes LCD screen for visual readout and maintenance monitoring
- Limited Warranty: Lifetime frame, 5 year electrical, 1 year battery

Silver Sport™ Wheelchair

Make Every Second of Every Day Count for Your Residents

Designed for easy transport and user comfort. It features a sturdy steel frame with a powder-coated finish, offering long-lasting strength and resistance to wear. With its smooth-rolling wheels and rear wheel locks, it ensures both maneuverability and safety, making it an ideal choice for individuals seeking reliable daily mobility support.

**Gel-U-Seat™ Skin
Protection
Gel/Foam Cushion
Model #8046-2**

**Drive DualEase™
Gel Cushion
Model #14991**

Features

- 250 lb. weight capacity
- Padded fixed armrests
- Nylon upholstery is durable, lightweight, attractive and is easy to clean
- Polyurethane tires mounted on composite wheels provide durability and low maintenance
- Comes with push-to-lock wheel locks
- Carry pocket on backrest provides additional convenience
- Comes with swing-away footrests

Gel-U-Seat™ Cushion Features

- Cover is water-resistant, low-shear stretch to reduce heat and moisture build-up
- Additional sizes available
- Limited Warranty: 18 Month

- Dual-layer gel offers two firmness levels—just flip for customized comfort and pressure relief.
- Additional sizes available
- Limited Warranty: 2 Year

Viper Plus™ GT Wheelchair with Universal Armrests

Superior Customization

Allows the user to easily convert the armrests into desk arm, half arm, and full arm with the push of a button. The armrests also adjust to eight individual heights in ½" increments for complete customization.

Balanced Aire™ Adjustable Skin Protection Cushion

Model #8047-18

Features

- 450 lb. weight capacity
- Adjustable height and length, flip-back, removable, padded arms
- Built-in seat rail extensions and extendable upholstery easily adjusts seat depth from 16" to 18"
- Adjustable angle back easily adjusts from 5° – 20°
- Adjustable height back adjusts from 17" – 19" in 1" increments, adaptable for individual patient needs

Cushion Features

- Available in 4" and 2" adjustable air cell heights and various sizes
- Machine washable, low-shear, stretch cover with adjustable locking straps and non-skid bottom
- Hand pump included to adjust the cushion to individual patient comfort
- Meets flammability standard TB117
- Limited Warranty: 2 Year

iGo[®]2 Portable Oxygen Concentrator with Optional Bluetooth Connectivity

Model # 125D | # 125D-BT

Oxygen optimized—it's the peace of mind you've been waiting for!

With patented SmartDose[®] Technology, the new iGo[®]2 automatically adjusts oxygen production to match a patient's oxygen needs based on breath rate. Now your patients can enjoy life more freely without worrying about changing oxygen settings with activity, and you'll have peace of mind knowing your patients are receiving clinically effective oxygen therapy no matter the location, time of day or level of activity.

Patented SmartDose
Technology

Most sensitive POC
converter trigger

FAA
compliant

Weighs less
than 5 lb.

Durable, high
quality POC

Features

- Revolutionary SmartDose Technology automatically adjusts oxygen production & delivery in real time to meet patient needs
- Unmatched converter trigger sensitivity (0.05 cm H₂O)
- Lightweight and easy to carry in its convenient over-the-shoulder carry bag
- Durable, high-quality design
- Bluetooth connectivity (125D-BT only) helps reduce costs and increase operational efficiency with Remote Fleet Monitoring

5L and 10L Oxygen Concentrator

Model #555DS | Model #1025DS

Breathe More Easily & Effectively

One of the smallest units on the market, the new 555 5L Oxygen Concentrator's compact size, durable construction, and quiet operation help you run more efficiently and reduce long-term ownership costs.

The 10 Liter Oxygen Concentrator is designed to provide optimal oxygen delivery for residents with varying flow requirements. With a weight of 42 lb. and an identical footprint to the 5 Liter Concentrator, the 10 Liter Concentrator is substantially smaller and lighter than competitive 10 liter concentrators.

Features

5 Liter

- Faster, safer deliveries—at just 29.9 pounds, the 555 is 10 to 15 pounds lighter than competing concentrators
- Quick servicing thanks to modular internal design providing easy access to streamlined components
- Helps lower monthly energy costs through a 17% reduction in power consumption

10 Liter

- Capable of delivering 87% to 96% of O₂ purity from 2 to 10 LPM
- Equipped with accessible controls, bright LEDs that can be seen from a distance, protected cannula fitting and recessed humidifier nook to prevent damage
- Transfill Caddy sold separately

Vacu-Aide® Suction Machine

Model #18600

Powerful Suctioning

This powerful and durable suction pump combines the performance expected for an institution with the ease of operation needed for use in long term care.

Features

- Includes 800 cc suction canister, 6' suction tube, 10" suction canister tubing, hydrophobic filter, plastic elbow connector and manual
- Vacuum levels up to 560 mmHg

Vacu-Aide® Suction Machine

Model #7325P-D

Lightweight & Lithium-Ion Battery Power Option

Quiet, powerful and easy to use, the Vacu-Aide® 7325P-D features a long-lasting lithium-ion battery and weighs less than 4 pounds.

Features

- Compact footprint enables portability while using standard canisters
- Ultra-quiet for peaceful treatment at ~59 dBA
- Lightweight, rechargeable lithium-ion battery provides lasting power and includes an industry-leading one-year warranty
- 2-Year Limited Warranty on Suction Unit

BATHING SYSTEMS

COLORADO, SARATOGA & NIAGARA TUBS

- All tubs are 100% made in the USA
- Best-in-class limited warranty
- Thermostatic mixing valve with anti-scald protection
- Built-in Disinfection System and freestanding tub design
- Limited Warranty: Lifetime door seal, 5 year external finishes and composite shell, 3 year moving and stationary parts

**Colorado Spring™
Bathing System**
Model #
DB-COLORADO-1100

Designed to provide caregivers with 360° unobstructed access during bathing. Its low threshold, wide side-entry door, and contoured built-in seat ensure safe, comfortable access for residents with varying mobility levels.

**Saratoga Spring™
Bathing System**
Model #
DB-SARATOGA-1100

Designed for healthcare facilities seeking a time-efficient, labor-saving bathing solution. Its unique tilting function allows residents with challenging conditions to recline comfortably and be quickly immersed in warm water.

**Niagara Spring™
Bathing System**
Model #
DB-Niagara-1500

Designed to safely and comfortably bathe highly dependent residents and is compatible with a wide range of transport and lifting devices. Its keyhole shape provides extra room for the shoulders and arms while allowing caregivers closer and easier access.
