Supportive Pressure Relief for Safety & Comfort

When it comes to products and solutions for individuals whose limited mobility puts them at risk of pressure injuries, we know that safety, comfort, and dependability are paramount. Drive Medical has worked with clinical experts to develop effective products to meet the specialized needs and lifestyles of individuals who require dedicated support and care to minimize their risk of pressure injuries. Explore our array of pressure-reducing products, including cushions, pads, and a range of alternating pressure mattresses, and feel secure in the knowledge that you and your loved ones are in good hands with high-quality products from Drive.

Premium Guard Gel Overlay

Item #	Product Description
14893	34" W x 76" L x 3.5" H
14901	42" W x 76" L x 3.5" H

- Best in class gel overlay optimizes pressure redistribution and is now available in up to 500 lbs weight capacity
- 15 gel bladders cover entire patient contact area for the prevention and treatment of pressure ulcers
- Full length "head-to-toe" gel bladders minimize "bottoming out" and "pitting"
- New convoluted foam topper vastly improves patient comfort and air circulation
- 4 elastic corner straps secure overlay to mattress
- Urethane coated nylon cover is water resistant and vapor permeable
- Vinyl base is stain resistant and waterproof
- Bladders contain an aqueous non-toxic gel and polystyrene beads to minimize gel migration
- Meets flammability standard TB117

Med-Aire Alternating Pressure Pump and Pad System

Item #	Product Description
14001E	36" W x 78" L - Variable Pressure
14002E	36" W x 78" L - Fixed Pressure
14001EFD	36" W x 123" L - Variable Pressure

- Quiet pump alternately inflates and deflates 130 individual bubble air cells
- 4 LPM (liters per minute) pump produces consistent air flow and pressure over a 5 minute cycle time and is available fixed or variable
- Variable pressure setting on pump allows for individualized comfort increasing patient compliance
- Durable, heavy gauge, premium vinyl bubble pad provides superior therapeutic treatment and is available with or without end flaps
- Pump has built-in brackets for mounting easily to bed

Med-Aire Melody Alternating Pressure and Low Air Loss Mattress Replacement System

Item #	Product Description
14026	Visual Alarm
14026-A	Visual Plus Audible Alarm

- Designed to prevent, treat and heal pressure ulcers in the home or long term care setting
- Control unit offers 10 minute cycles when alternating and can also be used in static mode
- Adjustable patient weight settings allow for optimal immersion and patient comfort & compliance
- System includes 20 individual air cells to maximize immersion and envelopment with pillow feature for head stability
- 8" deep air cells are easily removed for convenient servicing
- Removable nylon cover is fluid resistant, low shear and vapor permeable
- CPR valve allows for rapid deflation
- Tubing quickly and easily disconnects

Med-Aire 5" Alternating Pressure and Low Air Loss Overlay System

Item #	Product Description
14025NS	36" W x 80" L x 8" H

- Designed to prevent and treat pressure injuries in the home or long-term care setting, the Med-Aire 5" is an active mattress overlay system featuring 17 individual, 5" deep air cells. The 14025NS can be used on top of any standard foam or innerspring mattress and offers both alternating pressure and low air loss therapy to optimize pressure redistribution, shear and friction reduction, and microclimate control. The easy to use and intuitive control unit also offers a static feature and adjustable patient weight settings for optimal immersion, comfort, and compliance.
- Active mattress overlay system provides both alternating pressure and low air loss to optimize pressure redistribution, shear/friction reduction, and microclimate control
- Designed to prevent, treat and heal pressure injuries in the home or long term care setting
- Control unit offers 10 minute cycles when alternating and can also be used in static mode
- Adjustable patient weight settings allow for optimal immersion and patient comfort & compliance
- Visual alarm alerts when air pressure is low
- System includes 17 individual air cells to maximize immersion and envelopment
- Pillow feature maintains the 3 air cells at the head of the bed in static mode for head stability & patient comfort
- 5" deep air cells are easily removed for convenient servicing
- Removable Nylon cover is fluid resistant, low shear and vapor permeable helping protect the skin from friction and moisture
- CPR valve allows for rapid deflation
- Tubing quickly and easily disconnects with EZ Lock/Quick Release design

Med-Aire 8" Alternating Pressure and Low Air Loss Mattress System

Item #	Product Description
14027	36" W x 80" L x 8" H

- Active mattress replacement system provides both alternating pressure and low air loss to optimize pressure redistribution, shear/friction reduction, and microclimate control
- Designed to prevent, treat and heal pressure ulcers in the home or long term care setting
- Control unit offers 10 minute cycles when alternating and can also be used in static mode
- Adjustable patient weight settings allow for optimal immersion and patient comfort & compliance
- Audio and Visual alarm alerts when air pressure is low
- System includes 20 individual air cells to maximize immersion and envelopment with pillow feature for head stability & comfort
- 8" deep air cells are easily removed and replaced with air leakage plugs
- Removable Nylon stretch cover is fluid resistant, low shear and vapor permeable helping protect the skin from friction and moisture
- CPR valve allows for rapid deflation
- Tubing quickly and easily disconnects with EZ Lock/Quick Release design

Med-Aire Plus 8" Alternating Pressure and Low Air Loss Mattress System

Item #	Product Description
14029	36" W x 80" L x 8" H
14029-84	36" W x 84" L x 8" H

- Active combination therapy system provides both alternating pressure and low air loss to optimize pressure redistribution, shear/friction reduction, and microclimate control
- Designed to prevent, treat and heal pressure ulcers in the home or long term care setting
- Digital control unit offers 4 cycle times and adjustable comfort weight settings for optimal immersion and patient satisfaction
- 3 diagnostic audio and visual alarms alert for issues with air pressure, the system, or power
- System includes 20 individual air cells to maximize immersion and envelopment with pillow feature for head stability & comfort
- Advanced Clinical and Care Giver Features: Auto-Firm, Seat Inflate, microprocessing feedback, lock-out and more!
- Cell-on-cell designed air cells prevent "bottoming out" and provide up to 24 hours of power outage protection
- 8" deep air cells are easily removed with quick disconnects for convenient servicing
- Removable 4 way stretch PU cover is fluid resistant, low shear and vapor permeable helping protect the skin from friction and moisture
- CPR valve allows for rapid deflation
- Tubing quickly and easily disconnects with EZ Lock/Quick Release design

Med-Aire Plus 8" Alternating Pressure and Low Air Loss Mattress System with 10" Defined Perimeter

Item #	Product Description
14029DP	36"W x 80"L x 10"H

- Active combination therapy system provides both alternating pressure and low air loss to optimize pressure redistribution, shear/friction reduction, and microclimate control
- Designed to prevent, treat and heal pressure ulcers in the home or long term care setting
- Digital control unit offers 4 cycle times and adjustable comfort weight settings for optimal immersion and patient satisfaction
- 3 diagnostic audio and visual alarms alert for issues with air pressure, the system, or power
- 10" deep static perimeter tubing surrounds the length of the mattress preventing patient falls or entrapment
- Pillow feature provides head stability & comfort
- Advanced Clinical and Care Giver Features: Auto-Firm, Seat Inflate, microprocessing feedback, lock-out and more!
- Cell-on-cell designed air cells prevent "bottoming out" and provide up to 24 hours of power outage protection
- 8" deep air cells are easily removed with quick disconnects for convenient servicing
- Removable 4 way stretch PU cover is fluid resistant, low shear and vapor permeable helping protect the skin from friction and moisture
- CPR valve allows for rapid deflation
- Tubing quickly and easily disconnects with EZ Lock/Quick Release design

Med-Aire Plus 10" Bariatric Alternating Pressure and Low Air Loss Mattress Replacement System

Item #	Product Description
14030	42" W x 80" L x 10" H
14048	48" W x 80" L x 10" H
14054	54" W x 80" L x 10" H
14060	60" W x 80" L x 10" H

- Active combination bariatric therapy system provides both alternating pressure and low air loss to optimize pressure redistribution, shear/friction reduction, and microclimate control
- Designed to prevent, treat and heal all stages of pressure ulcers in the home or long term care setting
- Digital control unit offers 4 cycle times and adjustable comfort weight settings for optimal immersion and patient satisfaction
- 3 diagnostic audio and visual alarms alert for issues with air pressure, the system, or power
- System includes 20 individual air cells to maximize immersion and envelopment with pillow feature for head stability & comfort
- Advanced Clinical and Care Giver Features: Auto-Firm, Seat Inflate, auto-recovery, microprocessing feedback, lock-out and more!
- Cell-on-cell designed air cells prevent "bottoming out" and provide up to 24 hours of power outage protection
- 10" deep air cells are easily removed with quick disconnects for convenient servicing
- Removable quilted Nylon cover is fluid resistant, low shear and vapor permeable helping protect the skin from friction and moisture
- CPR valve allows for rapid deflation
- Tubing quickly and easily disconnects with EZ Lock/Quick Release design

PreserveTech™ Med-Aire Edge Alternating Pressure & Low Air Loss Mattress Replacement System

Item #	Product Description
14360-B	36" W x 80" L x 8" H - Analog
14360-P	36" W x 80" L x 8" H - Digital

- Active mattress replacement system provides both alternating pressure and low air loss to optimize pressure redistribution, shear/friction reduction, and micro-climate control
- Designed to help prevent, treat and heal pressure injuries
- Control unit offers 10-minute cycles when alternating and can also be used in static mode (exclusive to #14360-B)
- Control dial to optimize patient comfort levels by weight (exclusive to #14360-B)
- Advanced digital control unit offers 4 adjustable APM cycle times (10/15/20/25), and adjustable comfort weight settings for optimal immersion & patient satisfaction (exclusive to #14360-P)
- 9 deluxe clinical and care giver features: auto-firm, seat inflate, micro processing feedback, lock-out and more (exclusive to #14360-P)
- Audio and Visual alarm alerts when air pressure is low
- Digital control unit features 3 diagnostic audio and visual alarms to alert for issues with air pressure, the system, or power (exclusive to #14360-P)
- System includes 20 individual air cells to maximize immersion and envelopment and redistribute pressure with pillow feature for head stability and comfort.
- 8" firm foam perimeter for safe ingress and egress (getting into and out of the bed), patient transfers and power outage protection.
- 3" foam base for power outage protection
- 5" deep air cells are easily removed with quick disconnects for convenient servicing
- Removable and machine washable quilted 4-way stretch PreserveTech™ cover is fluid resistant, low shear and vapor permeable
- CPR valve allows for rapid deflation
- Tubing quickly and easily disconnects with EZ Lock/Quick Release design
- 45db decibel level

PreserveTech™ Harmony "True" Low Air Loss Tri-Therapy System

Item #	Product Description
14200N	36" W x 80" L x 10" H
14200N-42	42" W x 80" L x 10" H

- Designed to prevent, treat and heal pressure injuries in the home or long term care setting.
- Advanced, user friendly high-flow digital control unit offers (4) therapy cycle times ranging from 5 to 20 minutes, and (10) adjustable comfort weight settings for optimal immersion and patient satisfaction.
- High air flow "true" low air loss system wicks away moisture and humidity providing optimal micro-climate control
- Features three diagnostic audible and visual alarms to alert for issues with air pressure, power or the system.
- 20 individual, 8" deep air cells provide optimal patient comfort and pressure redistribution.
- 2" foam base offers protection in the event of a power outage or system failure.
- The cell material, Nylon/TPU blend, provides a specialty surface that conforms to the specific shape of the patient (immersion), minimizing soft tissue distortion, reducing bone and muscle friction.
- Quick cell disconnects offer convenient servicing and auto firm feature inflates air cells in under two minutes for rapid set up and ease of care giving.
- Removable, quilted four way stretch cover is manufactured with an anti-microbial* agent and is fluid resistant, low shear and vapor permeable helping protect the skin
- Built in cable management with (5) side mattress loops to keep cables off the floor, reducing tripping hazards.
- Snap fit buckle allows the system to be compactly wrapped for quick and easy storage within the included perfect fit carry bag
- CPR connector in case of emergency procedures releases the air immediately from the mattress for rapid deflation
- Tubing quickly and easily disconnects with EZ lock/quick release design
- Clinical and caregiver features include pulsation therapy, auto-firm, micro-processing feedback, lock-out and more!

PreserveTech™ Lateral Rotation System With On Demand Low Air Loss

Item #	Product Description
LS9500N	36" W x 80" L x 10" H

- Active mattress replacement system incorporating the functions of lateral rotation and low air loss to assist with pulmonary blood flow and mucosal drainage aiding in the prevention and treatment of pressure injuries in a single portable system.
- Combination therapy active system incorporates the functions of lateral rotation and low air loss to assist with pulmonary blood flow and mucosal drainage, as well as provide microclimate control to keep the patient cool and dry aiding in the prevention and treatment of pressure injuries in a single complete system.
- Mattress features 20, 8" individual split air cells provide customizable turn and rotation angles for optimal patient comfort and pressure redistribution.
- 2" foam base offers protection in the event of a power outage or system failure.
- 10" high side air bolsters provide fall prevention protection and facilitate safe patient transfers.
- Unique split air cells provide customizable turn time and rotation angles for patient comfort and satisfaction.
- Control unit offers 10 comfort levels, 10,20, 30 & 60 minute adjustable turning cycles and maximum turn angle adjustments.
- Turning modes include combinations of ¼, ½, ¾, and adjustable turning positions up to 40 degrees with left, right, both or none (static) directions.
- Removable quilted four way stretch polyurethane coated cover is manufactured with an anti-microbial* agent and is fluid resistant, low shear and vapor permeable helping protect the skin from friction and moisture.
- Pillow feature provides head stability and comfort.
- CPR connector allows for rapid deflation.
- Tubing quickly and easily disconnects with EZ lock/quick release design.
- Built in side loop cable management system reduces tripping hazards.
- Audio and Visual alarm alerts when air pressure is low.
- Advanced Clinical and Care Giver Features: Auto-Firm, auto-recovery, microprocessing feedback, lock-out and more!

Balanced Aire Powered Self Adjusting Convertible Mattress

Item #	Product Description
BA9600-NP	35" W x 80" L x 7" H - Non-Powered
BA9600-NP-84	35" W x 84" L x 7" H - Non-Powered
BA9600-P	36" W x 80" L x 7" H - Powered
BA9600-P-84	36" W x 84" L x 7" H - Powered
BA9600-NP-42	42" W x 80" L x 7" H - Non-Powered
BA9600-P-42	42" W x 80" L x 7" H - Powered

- Versatile reactive mattress replacement system with self adjusting air/foam cells provides outstanding pressure redistribution and shear/friction reduction
- Designed to prevent, treat and heal pressure ulcers in the home or long term care setting
- Add an alternating pressure pump and the Balanced Aire easily converts to a dynamic powered system (14005E or BA9600-PUMP)
- 2.5" Hybrid Visco foam top layer provides immersion, premium comfort and heat dissipation
- High density foam perimeter provides firm edge support and facilitates safe patient transfers
- Heel slope redistributes pressure away from vulnerable heels
- Self-adjustment can be open cell or closed cell to meet individual needs
- Self-Adjusting air cells recognize body weight and pressure and adjust to reduce interface pressure and improve patient comfort
- Eight non-circular cylinders prevent "rolling" or "gapping"
- Removable 4 way stretch PU cover is fluid resistant, low shear and vapor permeable helping protect the skin from friction and moisture
- Arrives patient ready easy to deliver, set up and transport
- Foam and cover are antimicrobial, antifungal, and latex free
- Meets flammability standards CFR1632 and CRF1633

Therapeutic 5 Zone Support Mattress

Item #

15019

Product Description

36" W x 80" L

- High quality latex free therapeutic foam mattress provides pressure redistribution and shear/friction reduction
- Deluxe horizontal, cross-cut foam mattress provides comfort, support, and pressure redistribution over 5 therapeutic pressure zones
- Non skid bottom keeps mattress safely in place
- Removable Nylon cover with welded seams is fluid resistant, low shear and vapor permeable helping protect the skin from friction and moisture
- Newly added handles make setup, delivery, and cleaning easier
- Intuitive tie-down straps easily fasten to virtually any bed frame for a secure fit to reduce mattress migration and falls
- Meets flammability standard CFR 1632 and CFR 1633

Gravity 6 Long Term Care Pressure Redistribution Mattress

Item #	Product Description
15670	36" W x 80" L x 6"

- High quality latex free therapeutic foam mattress provides pressure redistribution and shear/friction reduction
- Intuitive tie-down straps easily fasten to virtually any bed frame for a secure fit to reduce mattress migration and falls
- Full length articulation cuts to extend mattress life cycle and improve conformity to all bed positions
- Newly added handles make setup, delivery, and cleaning easier
- Deluxe horizontal, cross-cut foam mattress provides comfort, support, and pressure redistribution over 5 therapeutic pressure zones
- Better compliance and durability than innerspring mattresses allows for improved patient satisfaction
- Non-skid vinyl bottom cover keeps mattress safely in place
- Heel section is sloped offloading pressure
- Removable multi-stretch cover with welded seams is fluid resistant, low shear and vapor permeable helping protect the skin
- Softer and longer-lasting durable cover tolerates disinfectant cleaning supporting infection control, refer to user manual for suggested disinfectants
- Meets flammability standard CFR 1632 and CFR 1633

Gravity 7 Long Term Care Pressure Redistribution Mattress

Item #	Product Description
15770	36" W x 80" L x 6" H - Without Raised Rails
15777	36" W x 80" L x 6" H - With Raised Rails
15784	36" W x 84" L x 6" H - Without Raised Rails
15785	36" W x 84" L x 6" H - With Raised Rails
15876	36" W x 76" L x 6" H - Without Raised Rails
15877	36" W x 76" L x 6" H - With Raised Rails

- Therapeutic die-cut foam spans the full width for maximum patient contact
- Drive's most popular therapeutic foam mattress maximizes value and comfort with 3 full layers of latex free foam
- Full length articulation cuts to extend mattress life cycle and improve conformity to all bed positions
- Bottom layer provides full length horizontally scored articulation cuts extending the durability and life of the mattress
- High-density foam perimeters remain beneath for safe patient transfers
- Available with or without raised side rails
- Visco foam heel section offloads pressure from vulnerable heels
- Removable multi-stretch cover with welded seams is fluid resistant, low shear and vapor permeable helping protect the skin from friction and moisture
- Softer, more supple, longer lasting cover fabric for enhanced comfort
- Reduce mattress migration and reduce falls- easy to use and intuitive "d" ring straps quickly and easily secure mattress to virtually any bed frame
- High-density foam perimeters remain beneath for safe patient transfers
- New handles make setup, delivery, and cleaning easier
- Unparalleled non-prorated 7-year warranty with Date Stamped Foam
- Meets flammability standard CFR 1632 and CFR 1633

**Patented Unique
Polymer Gel
Structure**

Drive® DualEase® Gel Cushion

Give customers clinically designed skin protection and provide enhanced comfort with a reduced risk of pressure injuries (E2622)—no pump required—with our **Drive DualEase™ Polymer Gel Cushion**. Ideal for individuals with limited seating tolerance, the Drive DualEase™ Polymer Gel Cushion features a patented unique polymer gel structure that cradles ischial tuberosities and the coccyx, effectively redistributing pressure while promoting airflow to keep users cool and dry. Made from hyperelastic polymer gel, the cushion helps absorb shock and vibrations. With two firmness options in one reversible design, it accommodates a wider range of patient needs while reducing inventory complexity.

HCPCS Code E2622

Weight Capacity 300 lb.

Warranty 2 Years

Helps Prevent and Treat Pressure Wounds

With a flexible, interconnected dual-layer structure, the cooling polymer gel and open-cell design cradles bony prominences while absorbing shifting forces to reduce shear and promote airflow, reducing heat and moisture and protecting skin integrity. The self-recovering design maintains its shape and pressure reducing properties over time.

Streamlined Inventory

Enjoy the ease of reduced SKUs thanks to the dual-sided design providing two firmness options for varied patient needs. Available in 3 different widths (16", 18", and 20"), it's perfect for use with wheelchairs or anywhere!

Skin Protection

Protect vulnerable skin from moisture and irritation with a nylon two-way stretch cover, which is removable, machine washable for easy cleaning, and replaceable.

Go-Anywhere Design

Lightweight and easy to use on multiple seating surfaces with a stable, non-skid design—or take along for comfort on the go with two convenient carry handles.

Builds Trust With Customers

Backed by a non-prorated 2-year warranty, our cushion features PreserveTech™ antimicrobial* technology to help it stay cleaner and last longer. Replacement covers are available.

*Antimicrobial properties are built-in to protect the products; these products do not protect users or others against bacteria, viruses, germs, or other disease organisms

PrimeMat 2.0 Impact Reduction Fall Mats

Item #	Product Description
PM20BA	24" W x 70" L x .75" H - Brown
PM20GA	24" W x 70" L x .75" H - Grey

- Full length provides maximum coverage alongside bed
- Tough and lightweight - Mats are constructed from high quality molded Polyurethane foam inner core (210kgs/ cubic meter) to provide maximum absorption and rebound to reduce impact in the event of a fall
- Passed 5 foot "Egg Drop Test" - an egg was dropped from 5 feet above the mat without damage
- Low profile with tapered edges allow equipment such as overbed tables or patient lifts to roll over easily
- Anti-slip bottom netting keeps the mat secure to help prevent accidental tripping
- Embossed non-slip PVC leather look top is not only attractive but extremely durable and puncture resistant
- Non-slip pattern helps minimize slipping and is easy to clean with mild soap and water
